**Jamison Link Business Solutions LLC** (Jamison Link), a small, woman-owned consulting firm based in Rowlett, TX, specializes in current state assessments for IT assets, process controls, and human capital solutions. Serving both civil sector government and commercial clients, the company addresses challenges such as a limited number of technically trained professionals and high-cost resources. Jamison Link focuses on strategic sourcing techniques to efficiently and economically identify trained talent and products for the public sector. This approach ensures compliance with regulations and enables the company to fill challenging roles quickly.

Beyond talent sourcing, the firm also offers comprehensive professional development training. Our approach is practical and engaging, aiming to invigorate textbook knowledge by encouraging team collaboration in problem solving and innovation. We built our training standards and programs on nearly a decade of real-world experience.
